* Issues payable in Foreign Currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. Since Sept. 1950, the market noon rates are used. † Does not include refundable tax changes which were (in millions of dollars) 70, 155, 219, 70, 27, 43, 287 and 5 from 1943 to 1950 respectively. (1) Subject to revision. War Savings Certificates are included. Provincial Treasury Bills are excluded. Govt. of Canada Treasury Bills, Deposit Certificates and short-term notes sold directly to Bank of Canada and the chartered banks are not included in Heading I but are shown separately in Heading IV. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. However, the net reduction of total municipal bonded debt has been (in millions of dollars) approximately 46, 61, 53, 27, 43 and 5 in the years 1941 to 1946 respectively. Before the transfer to the Quebec Municipal Commission of certain school debt, the estimated net increases from 1947 to 1950 were 31, 78, 105 and 129. (2) Before giving effect to the issue of \$112.2 million of Quebec Hydro debentures in connection with retirement of Montreal Light Heat & Power stock. (3) Before giving effect to the issue of \$63.2 million of Quebec Municipal Commission bonds re transfer of the debt of certain school corporations.

Footnotes to table on opposite page. BONDS OUTSTANDING

(1) Provincial Treasury Bills are excluded. (2) Figures for the gross amount of bonds outstanding are compiled from latest official sources adjusted to 31 December 1950 by subsequent known issues and redemptions; when full details regarding these become available minor revisions may be necessary. (3) Including issues payable in Canada or London. (4) Figures for guaranteed issues are approximate in some cases for which full particulars are not available. (5) Comprises unmaturing funded debt. Redemption bonuses on the First War Loan and the Second and Third Victory Loans, Treasury Bills, Deposit Certificates, War Savings Certificates, and Non-Interest Bearing Certificates are included; the estimated amount of the refundable portion of excess profits tax is also included.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(2) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and

1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

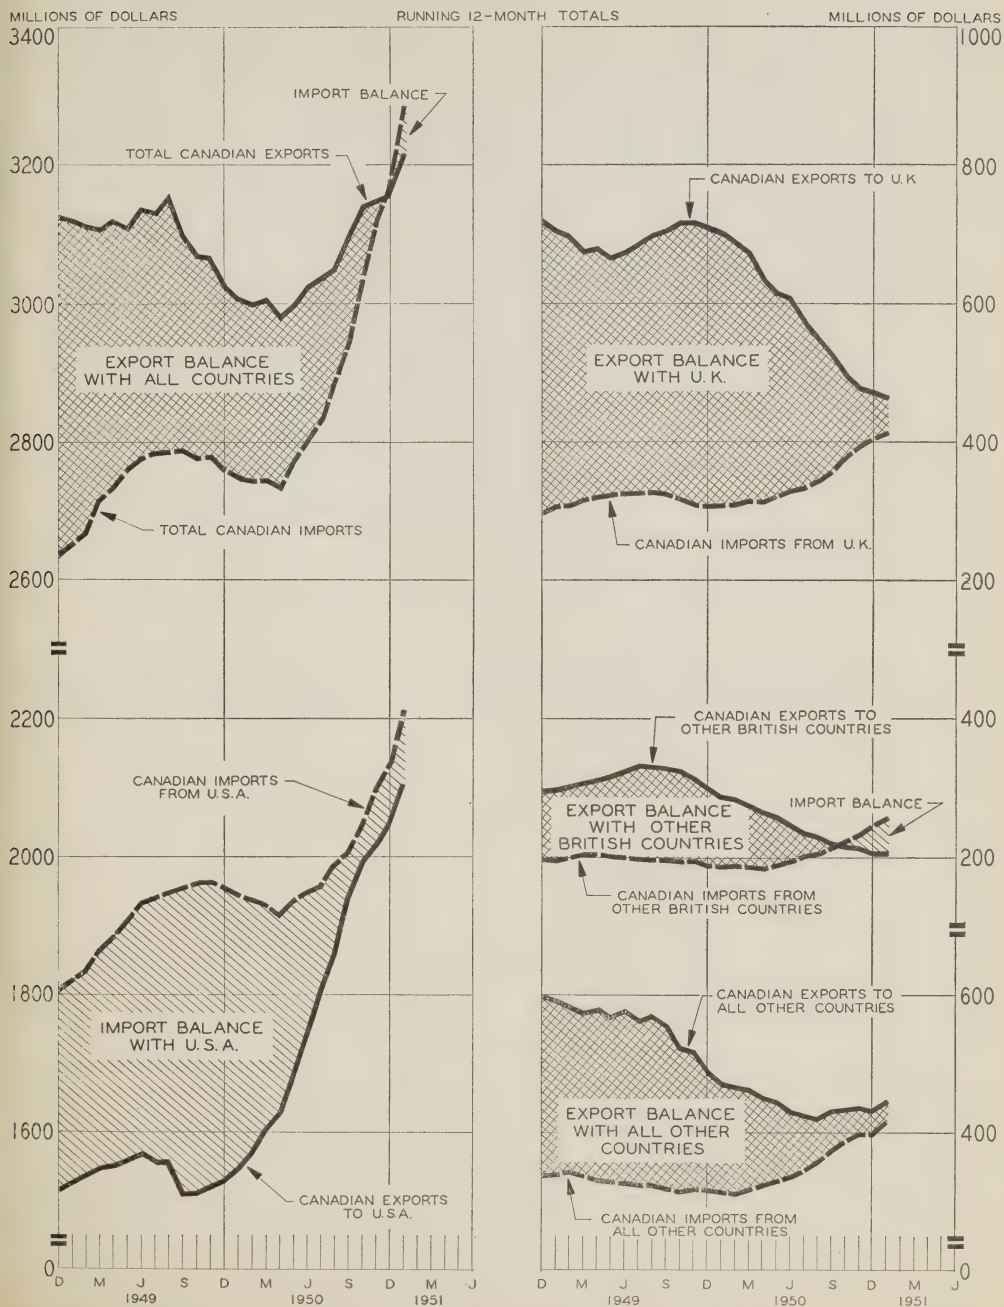

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

* Issues payable in Foreign Currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rate of the Foreign Exchange Control Board. Since Sept. 1950, the market noon rates are used. † Does not include refundable tax changes which were (in millions of dollars) 70, 27, 85, 287, and 56 from 1946 to 1950 respectively. (1) Subject to revision. War Savings Certificates are included. Provincial Treasury Bills are excluded. Govt. of Canada Treasury Bills, Deposit Certificates and short-term notes sold directly to Bank of Canada and the chartered banks are not included in Heading I but are shown separately in Heading IV. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. However, the net reduction of total municipal bonded debt in 1946 was \$43 million; before the transfer to the Quebec Municipal Commission of certain school debt, the estimated net increases from 1947 to 1950 were 31, 78, 105 and 129 millions of dollars respectively. (2) Before giving effect to the issue of \$112.0 million of Quebec Hydro debentures in connection with retirement of Montreal Light Heat & Power stock. (3) Before giving effect to the issue of \$63.2 million of Quebec Municipal Commission bonds re transfer of the debt of certain school corporations.

- (1) Output of central electric stations generated by water, less exports, plus power generated and used by the manufacturing and mining industries. Primary power is calculated at the coal equivalent, based on the average efficiency of central electric stations in the United States as reported by the Edison Electric Institute. Because of increased efficiency in the utilization of coal this average decreased from the equivalent of 1.95 lbs. of coal per kilowatt hour in 1926 to equivalent of 1.29 lbs. in 1949. Secondary power sold by central electric stations is calculated at its actual b.t.u. equivalent of 3,415 b.t.u. per kilowatt hour.
- (2) Primary power calculated at the constant 1926 rate of 1.95 lbs. of coal per kilowatt hour plus secondary power at its actual b.t.u. per kilowatt hour.
- (3) Includes anthracite coal, bituminous coal, sub-bituminous coal, lignite coal and imported coke. The unit heat values employed are: anthracite, 26,400,000 b.t.u. per ton; bituminous, 26,200,000 b.t.u. per ton; sub-bituminous and lignite, 20,000,000 b.t.u. per ton; coke, 20,000,000 b.t.u. per ton.

- (4) Sum of sales by retail dealers, consumption by industry, railways and by coke and gas plants plus the amount used by the collieries and supplied to employees for the years 1941 to 1949 inclusive. For earlier years the sum of sales by Canadian coal mines, colliery consumption, coal supplied to employees and coal used in making coke, etc., less tonnage bunkered and exported.
- (5) For years 1941 to 1949 inclusive, sum of sales by retail dealers, consumption by industry and by railways; for earlier years imports for consumption excluding foreign coal re-exported and bunkered.
- (6) The coal equivalent of the sum of gasoline, fuel and gas oils and kerosene, estimated by the D.B.S. and converted to b.t.u.'s on the basis of 1 ton of coal equals 26,000,000 b.t.u., plus petroleum coke consumed as fuel calculated at the rate of 30,000,000 b.t.u. per ton.
- (7) Sales and consumption by provinces. The unit heat value employed is; 1,075 b.t.u. per cubic foot.
- (8) Including water power calculated at the yearly average coal equivalent.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners rather than Customs data.
(2) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and

1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

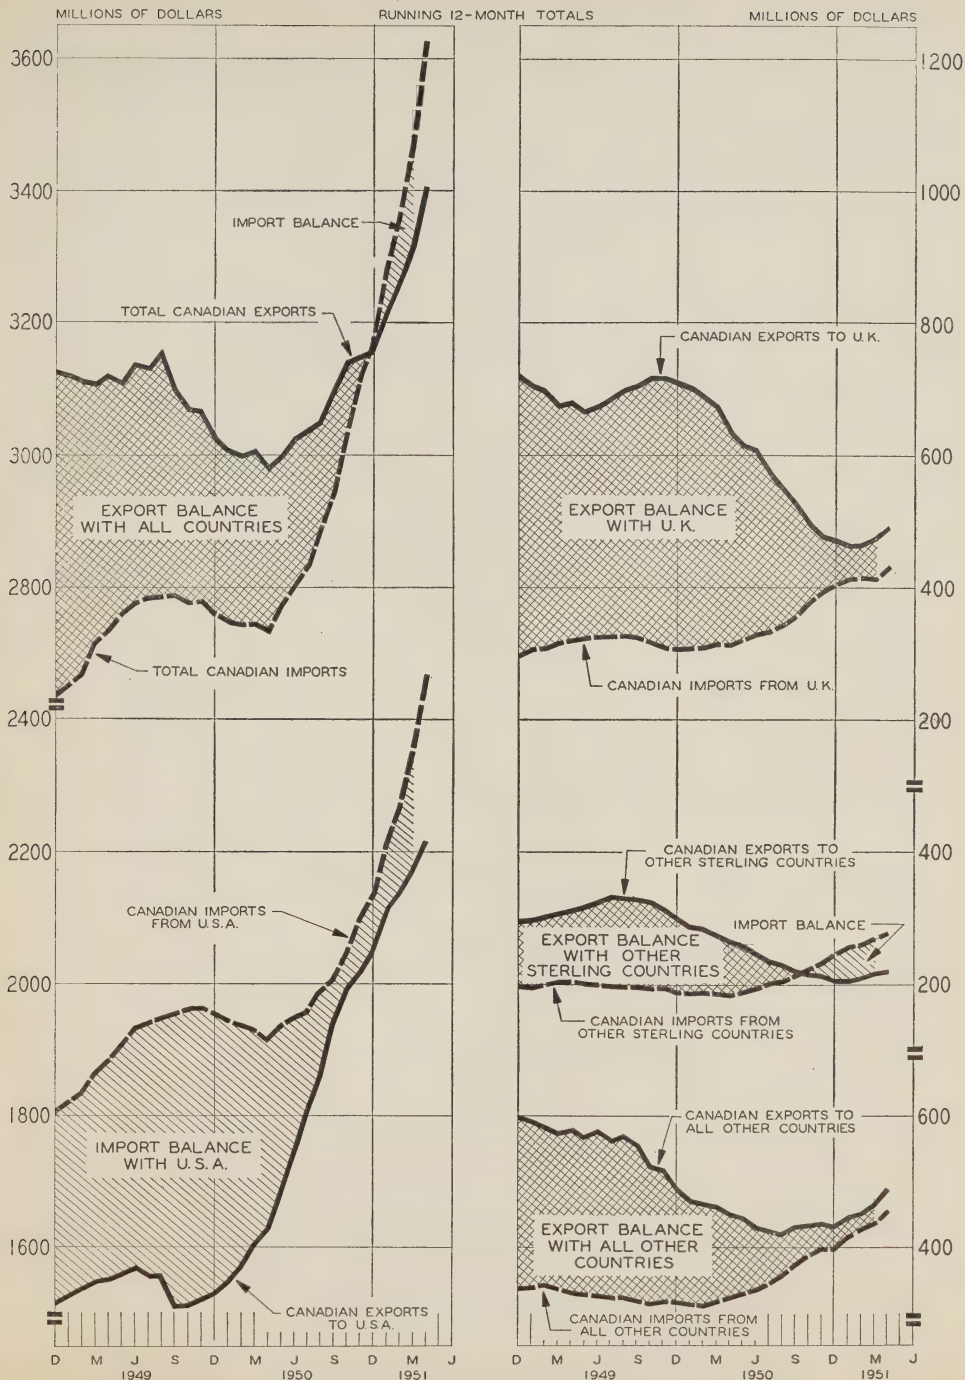

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Preliminary. (7) Estimates.

MERCHANDISE TRADE* **EXPORTS, IMPORTS AND BALANCE**

* Excluding gold. April figures are preliminary. See also footnotes to table on page 89.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners rather than Customs data.

(2) Imports from the United Kingdom do not include articles imported for the use of the armed forces of the United Kingdom. In the years 1946 and

1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(3) Consists of Eire, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

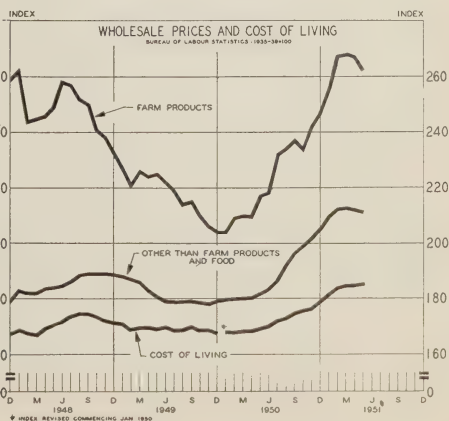

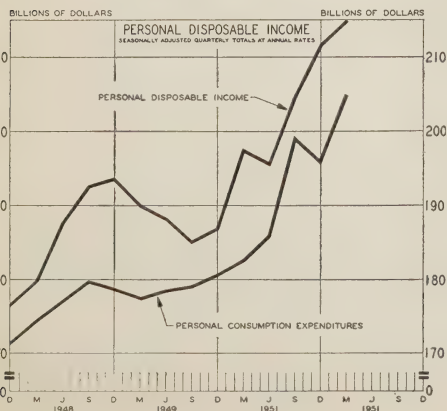

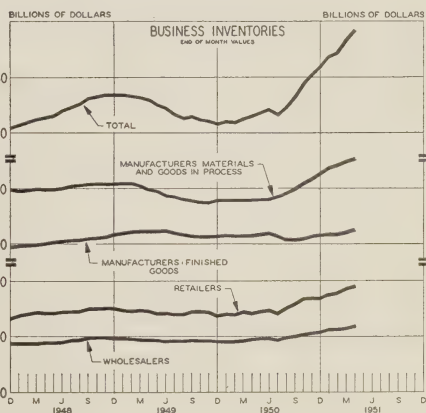

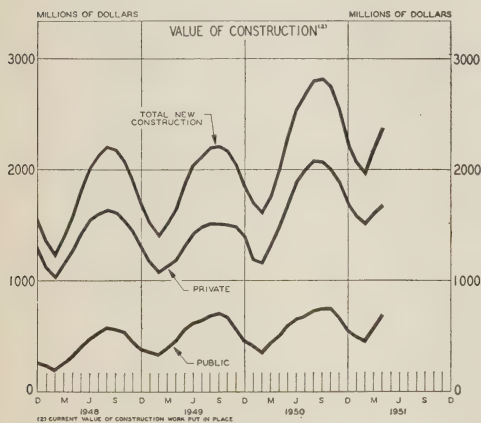

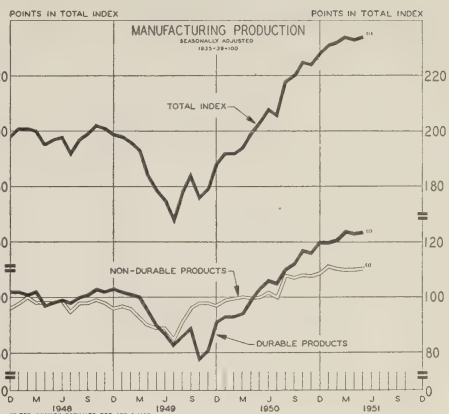

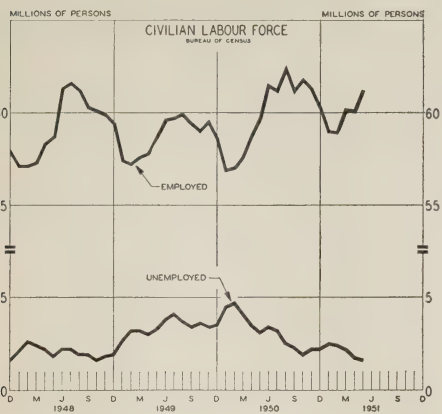

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Preliminary.

* Issues payable in Foreign Currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. Since Sept. 1950, the market noon rates are used. † Does not include refundable tax changes which were (in millions of dollars) 70, 27, 85, 287, and 56 from 1946 to 1950 respectively. (1) Subject to revision. War Savings Certificates are included. Provincial Treasury Bills are excluded. Govt. of Canada Treasury Bills, Deposit Certificates and short-term notes sold directly to Bank of Canada and the chartered banks are not included in Heading I but are shown separately in Heading IV. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. However, the net reduction of total municipal bonded debt in 1946 was \$43 million; before the transfer to the Quebec Municipal Commission of certain school debt, the estimated net increases from 1947 to 1950 were 31, 78, 105 and 129 millions of dollars respectively. (2) Before giving effect to the issue of \$112.2 million of Quebec Hydro debentures in connection with retirement of Montreal Light Heat & Power stock. (3) Before giving effect to the issue of \$63.2 million of Quebec Municipal Commission bonds re transfer of the debt of certain school corporations.

THE FOOTNOTES BELOW REFER TO TABLES ON PAGES 167 TO 172 INCLUSIVE

* The tabulation includes all those companies with 1941 assets over \$200,000 for which consistent reports were available from 1935-1950. The accounts of certain companies which were available in some or all of these years were not comparable throughout the period and had to be excluded. Since many of the companies report on a consolidated basis, the number of individual companies included in the sample is actually a good deal larger than indicated. The material is, of course, subject to all the limitations and qualifications which apply to the basic accounting statements.

† Figures are available on request for the years 1936-39 inclusive.

- (1) For purposes of comparability, any special capital charges made against income account in company reports have been added back as well as "contingent" and "general" reserves. Special inventory reserves, whether shown by the company in operating expenses or as an adjustment to earned surplus, have been deducted in arriving at Net Operating Profit. For the Total 626 Companies the special inventory reserves amounted to 5.6, 11.0, 5.8, 2.8, 4.2, -1.8, 2.8, 14.6, 1.9, 1.3 and 6.2, in the years 1940-50 respectively.
- (2) Includes deferred development and depletion provision where charged by the company. For the Total 626 Companies these amounted to 9.9, 9.9, 9.4, 8.5, 8.6, 8.4, 8.0, 9.0, 10.0, 8.8 and 9.9 in the years 1940-50 respectively.
- (3) The Source and Use of Funds Statement is designed to show net cash received from all sources and paid out for all purposes; revaluations or

purely bookkeeping transactions which affect items of the Balance Sheet, particularly Plant, Property and Equipment, Preferred and Common Stock Outstanding and, in a few instances, Funded Debt, are not reflected in the Source and Use of Funds Statement.

- (4) Includes amortization of bond discount.
- (5) Includes adjustments relating to tax accruals and other transactions of previous years.
- (6) Special inventory reserves have been deducted.
- (7) Reserves for depreciation and depletion have been deducted.
- (8) Includes current accounts receivable from subsidiaries and fixed investment in subsidiaries less current and non-current accounts payable to subsidiaries.
- (9) Includes bond discount and other deferred charges, deferred development, etc.
- (10) Includes pension fund reserves, insurance reserves and advance payments on government contracts.
- (11) Bonds and mortgages outstanding less sinking fund.
- (12) Includes contingent and general reserves, capital surplus and the refundable portion of the Excess Profits Tax.
- (13) Includes the Refundable Portion of the Excess Profits Tax, amounting to 19.1, 31.8, 26.9, 25.6, 2.3 and .1 in the years 1942-47 respectively.

† Newfoundland joined Canada on March 31, 1949 and since then figures for that province have been included.

(1) For purposes of comparability certain liability items shown on Provincial Balance Sheets, such as reserves and trust and special deposits covered by designated assets, have been excluded. The analysis in general conforms with that used in Comparative Statistics of Public Finance, Dom.-Prov. Conference. Also see note (8).

(2) Includes bonds, debentures and stock and debentures issued for the school refinancing plan by the Quebec Municipal Commission. See note (9).

(3) Decrease largely due to the adjustment of indebtedness of the four western provinces in respect of relief loans, etc., and to final settlement of claims of Alberta and Saskatchewan regarding natural resources.

(4) Alberta figures for years 1937-1949 inclusive, include a liability for unpaid interest on bonds, debentures and savings certificates which, for the years 1937-1945, is based on the assumption that the net amount of back interest provided for under the Debt Refunding Plan was accumulated evenly over the period. The 1945 figure includes 10.8, being the portion of interest adjustments deferred under the plan. In 1946, 47, 48 and 49 the corresponding figures are 8.7, 6.5, 4.3 and 2.2 respectively.

(5) Excluding C.N.R. bonds guaranteed by provinces. Also see note (9).

(6) Govt. of Canada loans under Municipal Improvements Assistance Act. Quebec figures of indirect debt exclude 18.6, 35.7 and 35.6 in the years 1945, 48 and 49, being commitments on the Public Charities Fund payable

to institutions in equal instalments. Similar grants in other provinces are voted annually through current account and not shown as contingent liabilities. Also see note (9).

(8) Most provinces have assets such as cash, investments, advances to or (10) guarantees for enterprises of a self liquidating nature. Thus the "dead-weight" debt of a province in any year may be considerably less than the amount shown hereunder. ★

School refinancing bonds of 59.1, 55.3 and 51.2 (est.) in the years 1948, 49 and 50 respectively, issued by the Quebec Municipal Commission and guaranteed by the Province are included in Direct Funded Debt.

Includes savings deposits, temporary loans, superannuation and other deposits, accrued interest, accounts payable and other liabilities. Approximate figures, compiled from information contained in budget speeches, preliminary releases and related material.

† Newfoundland joined Canada on March 31st, 1949.

(1) Includes items which provinces may place in capital account, such as rural hydro bonus, grants for construction of schools, municipal roads, hospitals and other institutions not provincially owned, and direct relief expenditures. Also for the purpose of comparison, certain items of revenue have been deducted from the corresponding expenditure. See footnotes (1) and (7) page 175.

(2) Excludes pensions for the blind.

(3) Includes payments to hospitals under the Hospital Services Plans in Saskatchewan (1947-51) and British Columbia (1949-51). Also expenditures for health care which in previous Statistical Summary statements were included in "Other Public Welfare".

(4) Composed largely of expenditures of general administrative departments. Administration cost of each function of government shown in this table has been charged to that function.

(5) Includes an amount for unpaid interest in Alberta for the years 1937-1950 inclusive. For the years 1937-1945 this is based on cash payments for

interest adjustments, less offsetting reimbursements, made under the Debt Refunding Plan, spread evenly over the default period. Figures for the years 1946-1950 include the payments on the interest adjustments deferred in accordance with the plan.

(6) Includes sinking fund earnings. Also interest revenue from Common School and School Land Funds which in previous Statistical Summary statements was shown as a Revenue item. See footnote (7) page 175.

(7) See footnote (4) on page 175.

(8) Totals will differ from the total expenditure figures given in the Provincial Public Accounts since for the purpose of comparison a number of adjustments have been made including the deduction of certain revenue items. (See footnote (1)).

(9) See footnote (2) page 175.

(10) See footnote (10) page 175.

(11) See footnote (11) page 175.

(12) See footnote (5).

* Issues payable in Foreign Currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. Since Sept. 1950, the market noon rates are used. † Does not include refundable tax changes which were (in mill. of dollars) \$5, 287, and 56 from 1948 to 1950 respectively. (1) Subject to revision. War Savings Certificates are included. Provincial Treasury Bills are excluded. Govt. of Canada Treasury Bills, Deposit Certificates and short-term notes sold directly to Bank of Canada and the chartered banks are not included in Heading I but are shown separately in Heading IV. Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. However, the estimated net increases from 1948 to 1950 were 78, 105 and 129 millions of dollars respectively.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners rather than Customs data. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and the first 10 months of 1951 amounted to 61.8 and 99.6 million dollars respectively.

(2) Imports from the United Kingdom do not include articles imported for

the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

(3) Consists of Erie, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Preliminary. (7) Estimates.

* Commencing April 1, 1949, external trade of Newfoundland is included and Canadian trade with Newfoundland, formerly in the "All Other" category, disappears.

(1) Includes exports of foreign produce. In the case of wheat, export figures are based on Board of Grain Commissioners' rather than Customs data. Excludes defence equipment transferred by Canada to North Atlantic Treaty countries which in 1950 and the first 10 months of 1951 amounted to 61.8 and 99.6 million dollars respectively.

(2) Imports from the United Kingdom do not include articles imported for

the use of the armed forces of the United Kingdom. In the years 1946 and 1947 articles admitted free under Order in Council (9213) and the item "Canadian Goods Returned" (9195) are excluded.

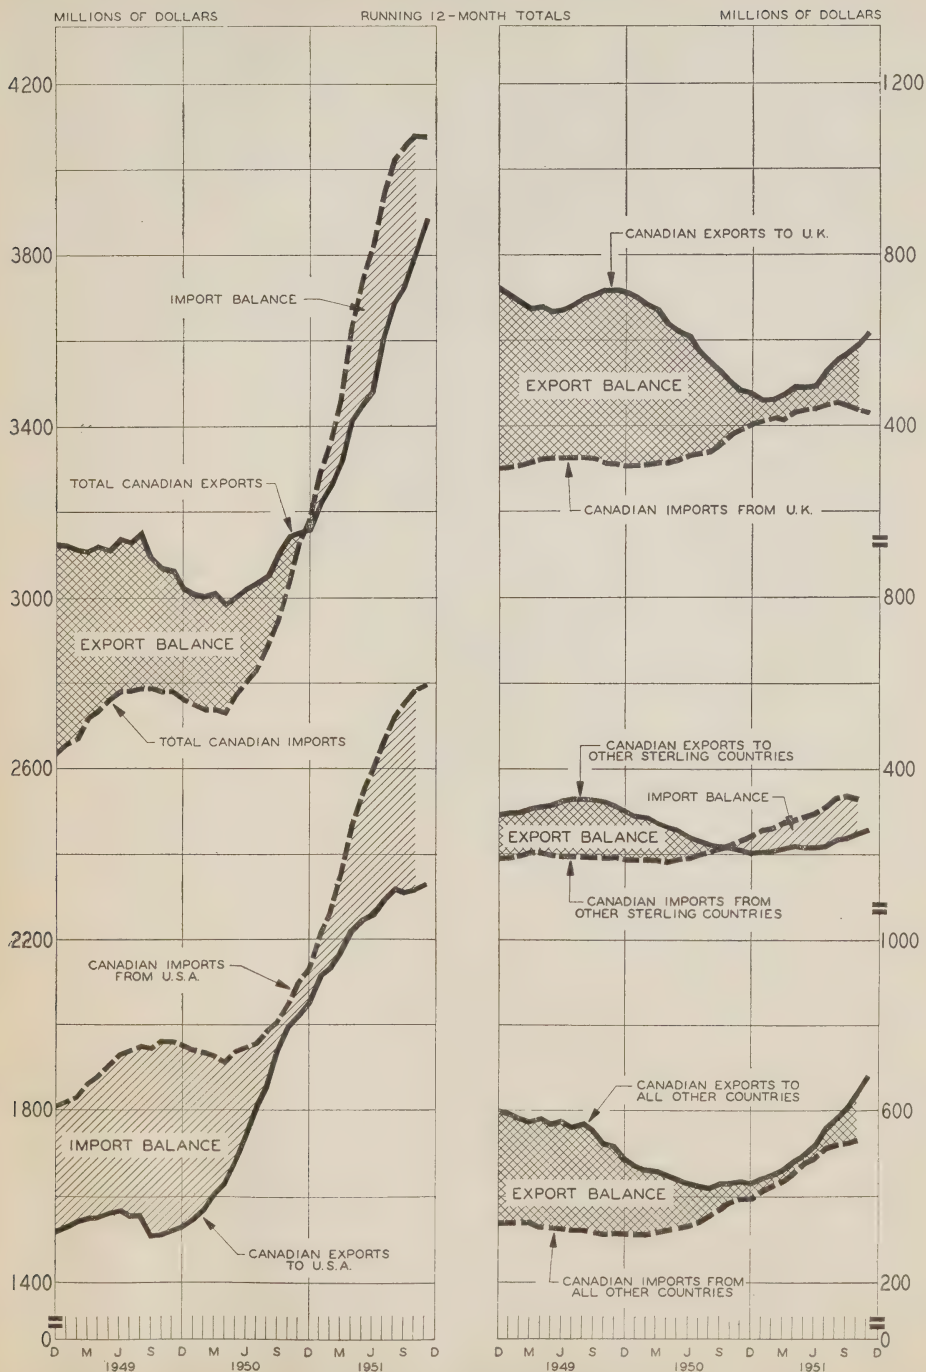

(3) Consists of Erie, India, Pakistan, Burma, Australia, New Zealand, Iceland, Ceylon and Iraq. Egypt is included in All Other.

(4) Excludes Spain, but includes Greece, Turkey, and British Sudan.

(5) Includes Egypt, Spain, Palestine, and also Newfoundland until March 31, 1949.

(6) Preliminary. (7) Estimates.
